OF INTEREST TO WORLD WAR VETERANS.

P. O. Inspector Wm. Renken was
here a few days ago giving Postmas-
ter Brucks the latest information in
regards to the payment of the ad-
justed service bonds to the veterans
of the World War. The bonds will
be sent out of Dallas, Texas on the
morning of June 15. They will reach
Hondo on Tuesday, June 16, at 4:30
P. M. As some time will be required
in the local postoffice to prepare the
letters for delivery, those concerned
are informed that the delivery and
certification for payment of these
bonds will start at 8 A. M. on Wed-
nesday, June 17. Mr. Brucks has
made arrangements so that these
bonds will be delivered and certified
for payment with as little trouble and
delay to the veterans as possible.

The registered letters containing
the bonds can be delivered only to
the person addressed and no one else
can sign for them. They are to be
held for 30 days, after which time
they will be returned if they are un-
claimed. Rural route carriers will
deliver them to patrons on their
routes but they will not be delivered
by star route carriers.

The bonds cannot be cashed at the
local postoffice. Veterans who desire
to cash them must be identified by
the postmaster in whose presence they
must be endorsed. The veteran is
then given a receipt for the bonds
by the postmaster who forwards them
to the central paying office, which
in our case is Austin, Texas. A check
for the amount of the bonds will be
sent direct to the veteran by the cen-
tral paying office as soon as possible.

Veterans unknown to the postmaster
must be identified by two witnesses.
Postmasters may authorize their
clerks to act for them in certifying
the bonds for payment.

The Treasury Department and
Post Office Department are making
every effort to deliver these bonds
to every veteran as soon after June
15 as possible. However it is a tre-
mendous task and if there is any de-
lay in the delivery of any of them,
those concerned are cautioned to re-
member this and not become alarmed.

Postmaster General Farley has
taken a personal interest in this mat-
ter and has asked every postal em-
ployee to exert every effort that each
veteran may secure his compensation
with as little trouble as possible. Mr.
Farley will speak over a nationwide
radio hookup on Saturday, June 13,
from 8 to 8:15 P. M. He will have
a special message of interest to every
veteran who is to receive any ad-
justed service bonds.

ATTENTION, PROSPECTIVE CANDIDATES.

All applications by candidates for
county or precinct offices in the Dem-
ocratic primary must be in the hands
of the county chairman not later
than midnight on June 13. These ap-
plications must be in compliance with
Art. 3113 of our election laws, must
be in writing and give the name,
place of residence, postoffice address
and occupation of the applicant, and
must be acknowledged like a deed be-
fore a notary public. An application
not in conformity with the law can-
not be considered.

The county executive committee,
composed of the precinct chairmen
in the various election precincts, will
meet at the courthouse in Hondo on
Monday, June 15, at 3 P. M. All ap-
plicants for county or precinct nomi-
nations are requested to meet with
the committee, as matters of impor-
tance to them will be discussed and
acted upon at that meeting.

L. J. BRUCKS,
Democratic County Chairman.

"S. F. GOES TO TOWN."

Mrs. M. I. Broxton, sponsor of the
Strictly "Fish" Club, took the five
members to San Antonio Tuesday.
They ate lunch at the Gunter Cave
and attended the movie at the Ma-
jestic Theatre.

The ones who enjoyed the trip were
Evelyn Ruth Dawson, Helen Burgin,
Sussie Muenink, Sister Meyer, Eliza-
beth Reynolds, and Mrs. M. I. Brox-
ton. Everyone had a fine time.

HONDO METHODIST CHURCH.

Shan M. Hull, Pastor.
This coming Sunday will be ob-
served as "Church School Day" by
the Hondo Methodist Church. There
will be a brief program by the school,
followed by a sermon by the pastor
for the occasion. Let's have a good
attendance for this service.

We are now entering into the sum-
mer months, when it is an easy mat-
ter to stay away from the house of
worship. Some seem to feel that sum-
mer time is the time to take a vaca-
tion, and many lay off from attend-
ing divine worship. Suppose that the
Lord of Heaven took out for a while,
and neglected His people, what would
become of us? Remember that we
will be tempted many times during
the summer to stay away from church
but let's not give way to the tempter.
Whether at home or abroad, let's
make it a point to attend services, at
least once a day.

When tempted to stay away from
church in the summer, answer with a
decisive "no". Say "no" for three
reasons:

The first reason: if everybody
did that, there would be no one at
church but the preacher, and you
can't have a very inspiring service
with just the preacher.

The second reason: It is an act of
disloyalty. When you united with
the church you promised to be faith-
ful and loyal to the services, not only
in winter, not only on rainy Sundays,
but throughout the church year. But
some one may say, "I am there in
spirit." Still the minister does not
like to preach to spirits. It is hard
to work up a lot of enthusiasm over
spirits. He likes to see men and wo-
men of flesh and blood, young men
and young women, boys and girls,
whole families before him in the
pews. That is what inspires him and
helps him in the service.

The third reason: You are starv-
ing your soul and dwarfing your
higher life. Man does not live by
bread alone. Bread is very neces-
sary, but it does not satisfy the soul.
Man does not live alone by breathing
in pure sunny air of outdoor life.
The soul requires an atmosphere; it
must breathe or die. Consequently,
feed your soul at the church services.
Taste and see that the Lord is good.
Satisfy your deeper longings with the
fatness of God's house. Let's make
every Sunday a Go-to-Church Sun-
day.

"Come thou with us, we'll do thee
good."

FIREMEN AWARD BADGES.

At the regular weekly meeting of
the Hondo Volunteer Fire Depart-
ment badges were awarded to twenty
six Firemen, namely: Ex-Fire Chief,
C. J. Bless; active chief, L. A. Mech-
ler; assistant chief, Alred Breiten;
fire marshal, J. B. Dawson; chair-
man Reily and firemen, M. G. Heyen,
Arthur Ney, Aaron Boehle, Theo.
Cagle, Thos. Specht, Bru Miller,
Milton Mechler, Edgar Mechler,
Wesley Breiten, Eddie Breiten, Geo.
Reitzer, Hugo Batot, Harold Stiegler,
Wilton Meyer, O. G. Crow, James
Crow, A. Thur Brucks, Edw. Bendele,
P. R. Richter, Capt. R. W. Speece and
M. F. Schweers.

We have on hand four additional
badges which we would like to pre-
sent to some four men, as we are go-
ing to try to maintain a two-team
Firemen's squad composed of thirty
members. The requirements of a
Fireman to receive a badge are that
the person be twenty-one years of
age or over; he must be willing to
adhere to the rules and regulations
of the Fire Dept.; and he must at-
tend three successive meetings to be
entitled to a badge.

The Fire Dept. would welcome ad-
ditional members, therefore if you
are interested in our work kindly re-
port at the Fire House on any Thurs-
day night.

QUIHI NOTES.

Wherefore he called upon that
place Beersheba; because there they
swore both of them. Gen. 21: 31.

The conclusion of the treaty be-
tween Abimelech and Abraham, un-
der oath-confirmed promises, was
memorialized with a name selected
by Abraham for the place where it
happened, Beersheba, well of the
oath. It's a fair pointer for the lan-
guage he used in those days (do not
be misled by the first part of the
word), it speaks for the artistic
taste of the man and for the impor-
tance he attached to these treaty ne-
gotiations. Judging by later history,
the place always has remained a fa-
vorite for the patriarchs and their of-
spring, for prophets and kings, and
was a kind of Mason and Dixon line,
a boundary indication, for Israel.
The remnants of a small city and
the wells are still in existence today.
But why so much ado about these old
landmarks and antiquities in gener-
al? Our Texas Centennial year
might give a voluminous answer. It's
of more than passing interest, how
many old and well-nigh ignored
places are "spotlighted", the history,
the people, the life, the occurrences,
defeats and achievements, extolled,
the vision, courage, trials and hard-
ships stressed and the whole antique
historic setting displayed as setting
the pace and the guarantee for a
new era of better understanding,
greater success and progress, and of
more prosperity and individual happi-
ness. Truly, it's a time of nation-
wide acknowledgement and gratitude,
that often comes belated, and a dis-
pensing of honor and tribute to whom
they are due. Of course, it's part of
human eulogism, professional and
otherwise, to mix in a little bombast,
seeing too much, carried away by the
flight of oratory, creating heroes
where there are none, forgetting the
lowly and reticent, bolstering trifles
into phenomena, giving credit to in-
dividuals and organizations that are
rather innocent but loud about his-
torical merits, not to speak of the
commercialized assets of the celebra-
tion. The history written beyond
will rectify all that. But, while many
a youngster blows his cheeks red with
a whistle that dad made, and many
grow fat with meals that others have
cooked, and the "We" is usually out-
balancing the "He", just how much
space is allotted the Thee, O Lord
(Who hast given the day and the
deed, the brain and the backbone, the
way and the walk), in the thought
and program at Beersheba, or call it
Dallas?

Our "graduates", at least some of
them, have entered upon a new pro-
gram of life. Roy Bohlen and Harold
Weeber have selected a business
career and left the home surround-
ings with our blessing. A few spells
of homesickness might put a keen
edge on the new situation now and
then, but it makes the home-fires
burn so much the brighter. The Lord
be with you and crown your efforts
with lasting success.

A harrowing experience frayed the
nerves of Mr. F. F. Mumme, going
into the ditch with car and trailer on
the Hondo-Dunlay highway. The ve-
hicles were badly damaged, but life
and limb were spared. Another reason
to appreciate divine protection.

Some twenty members and guests
were on the premises during the
meeting of the Ladies' Aid. We are
glad of the increase. A survey of
the financial side of the anniversary
was given and all items taken care of.
The coverings of the altar will be re-
newed; the Christmas box to the mis-
sion field was forwarded. Thanks to
all contributors. A reading on
"Modern Martyrs in the Missions"
was given. The entertainment was
in the hands of the Mesdames J. H.
Bohlen, O. Grell, Arnold Balzen and
highly appreciated.

Mrs. Roy Dailey was on the sick-
list, but fully restored as to the latest
reports. Glad to hear it.

ALFRED LANDON NOMINATED.

In what was probably the most
harmonious convention in the history
of the Republican party, Governor
Alfred Landon of Kansas was unani-
mously nominated at Cleveland, Ohio,
last night.

The Vice-Presidential Candidate
is to be nominated today.

Shrewd fellows are those Republi-
cans.

In so far as one can judge from a
mere listening in over the radio, it
seems that they sense the magnitude
of the fight they have on their hands
and left nothing humanly possible to
do undone to concentrate and unify
the opposition to Roosevelt.

In other words, they seem to have
met his strategy of dividing and de-
stroying the opposition with the
counter strategy of uniting and fight-
ing.

Looks like a mighty interesting
campaign has started.

BRUCKS-SCHLENTZ.

A pretty June wedding was that
solemnized at 2 o'clock Thursday af-
ternoon, June 11, 1936, at St. Paul's
Lutheran Church, when Miss Thelma
Schlentz became the happy bride of
Mr. George Brucks, Rev. W. Leib-
farth officiating. Decorations of
pink roses, pink crepe myrtle and
lace fern formed a background for
the ceremony.

The bridal party entered to the
strains of a wedding march played
on the organ by Mrs. Annie Stiegler.
The bride's attendants were Miss Ed-
na Loessberg, maid of honor, and
Miss Lorene Brucks, sister of the
groom, as bridesmaid. Little Miss
Elma Saathoff was ring-bearer. The
groom was attended by Mr. Herbert
Moehring as best man, and Mr. El-
mer Nietenhoefer as groomsmen.

The bride wore a becoming white
lace dress, and a veil of bridal net,
held to the head with a wreath of
orange blossoms. Her bouquet was
of white carnations and lace fern.
The maid of honor wore a floor-
length dress of peach crepe in lace
effect and Miss Brucks wore a long
blue organdy frock. Their flowers
were pink and white lilies and fern.
The little ring-bearer wore a long
frock of lavender organdy and a
bandeau of the same organdy. The
men of the bridal party wore grey
suits.

Immediately after the ceremony,
the members of the bridal party and
relatives and friends repaired to the
home of Mr. and Mrs. Chas. Schlentz,
where light refreshments were served.
Mr. and Mrs. Brucks then left by

Sudden Death of Speaker Byrns—Rome Hails Badoglio While London Cheers Haile Selassie—Rural Housewives of World Convene.

By EDWARD W. PICKARD

© Western Newspaper Union.

DEATH, sudden and unexpected, came to Joseph Wellington Byrns, speaker of the house of representatives, and put an end to a notable career. The veteran Tennessee congressman suffered a heart attack, followed by a cerebral hemorrhage, and passed away within a few hours in his apartment in the Mayflower hotel, Washington. For 27 years Mr. Byrns had represented the "Hermitage district" of Tennessee in the house, and he was elected speaker when the Seventy-fourth congress convened in January, 1935. He was a master of parliamentary strategy and so fair-minded a presiding officer that all, even his political opponents, praised and admired him. Before becoming speaker he served long years on the appropriations committee, as member and chairman, and he also was leader of the Democratic majority and chairman of the Democratic congressional campaign committee.

J. W. Byrns

Grief for Mr. Byrns' death was general and sincere in Washington officialdom. "I am shocked beyond all imagination," said Representative Bertrand H. Snell of New York, the minority leader. "It is a terrible loss. It is an almost irreparable loss."

Senator Joseph T. Robinson of Arkansas, the majority leader, after expressing his own sense of loss, added: "His work during the session has been very difficult and trying. He was a great speaker."

President Roosevelt in a statement from the White House expressed well the high esteem in which Mr. Byrns was held. Said he:

"Fearless, incorruptible, unselfish with a high sense of justice, wise in counsel, broad of vision, calm in adversity, and modest in victory, he served his state and the nation with fidelity, honor, and great usefulness. I personally mourn the passing of a steadfast friend of many years."

Impressive funeral services were held in the chamber of the house, the President, members of the cabinet and numerous diplomats being present in addition to all members of congress. The body was then taken to Nashville, Tenn., for burial, and Mr. Roosevelt accompanied the special congressional committee there.

The house elected William B. Bankhead of Alabama speaker for the remainder of the session.

The death of Speaker Byrns followed closely that of another well-known congressman, A. Platt Andrew of Massachusetts, a Republican. He died of influenza at his home in Gloucester at the age of sixty-three. Mr. Andrew, who taught economics at Harvard more than thirty years ago, was director of the mint for a few months under President Taft and then was assistant secretary of the treasury. He was elected to congress in 1921, and supported much of President Roosevelt's early legislation.

MISS CLARA DUTTON NOYES, sixty-six, director of the American Red Cross nursing service, died in Washington a few minutes after she was stricken while driving to work in her car. Miss Noyes was assistant director of the American Red Cross nursing service during the World war. She also had been superintendent of nurses at the Bellevue and allied hospitals in New York.

Cyrus Hall McCormick, whose father developed the farm reaper and who himself helped organize the International Harvester company and was its president for 33 years, died at his home in Lake Forest, Ill., at the age of seventy-seven years. He was noted as a progressive business man, liberal with his employees and always interested actively in public welfare movements. He was rated as one of the wealthiest men in America and gave millions of dollars to educational and charitable organizations.

MARSHAL PIETRO BADOGGIO, conqueror of Ethiopia and now viceroy of that part of the reconstituted "Roman empire," returned to the Eternal City in triumph and was vociferously welcomed as a hero. Sixty thousand Romans welcomed him as he stepped from his train, and Premier Mussolini modestly waited in the background until they had shouted their greetings to the veteran warrior. Then Il Duce came forward and

Viceroy Badoglio

kissed the viceroy on both cheeks, and the high ranking Fascist military leaders paid homage. With the premier and the picked troops forming the escort of honor were the entire cabinet. Several days later a great military review was held.

The other side of the picture was

seen in London, where Haile Selassie, the deposed emperor of Ethiopia, arrived in tears and sadness, though he was given an ovation by the cheering thousands that had seldom been accorded to visitors to England. Many of the Londoners carried Ethiopian flags or scarlet banners reading "Welcome to the Emperor." With the white sympathizers were many African chiefs in native robes, Somalis, negroes, Hindus, Chinese, and colored people from all parts of the world.

There was an outburst of wild cheering when Selassie, bareheaded and wearing a long black cape, stepped from his private sleeping car and was greeted by many notables, including O. C. Harvey, private secretary of Anthony Eden, British foreign secretary. Harvey was the lone representative of the British government.

JUST as the "popular front" in France was taking over the government the country was distracted by strikes that spread rapidly to almost all industrial centers and involved all manner of trades. The workers demanded higher wages, a 40-hour week and a closed shop, and they went out by the hundred thousand though they knew they were causing great embarrassment to their own leaders. In many cases the strikers took possession of the closed plants.

In Spain the syndicalists tied up various industries by strikes that involved about 250,000 workers and that were marked by several murders and other outrages. Augusto Barcia, minister of state, said the government planned to outlaw the syndicalists if they persisted in disobeying orders from the ministries of labor and the interior.

J. H. THOMAS, until recently British colonial secretary, was found responsible by a special government tribunal for the leak in budget secrets which enabled some of his friends to profit largely through insurance against tax raises. Final disposition of the case was left to the house of commons. Thomas, once an engine wiper and later a powerful figure in organized labor and politics, termed the tribunal's verdict "cruel." He said: "My own conscience is clear. I repeat what I previously stated upon oath: that I made no disclosures of budget secrets to anybody."

RURAL housewives from many countries began their third triennial conference in Washington with Mrs. Alfred Watt of Canada presiding.

Their first meeting was held in 1930 in Vienna, and the second in Stockholm three years later. Secretaries Hull and Wallace and Mrs. Franklin D. Roosevelt, wife of the President, extended greetings to the visitors, but beyond that there were no set speeches and little formality. Instead, the farm wives held "exchange of experience" sessions, viewed elaborate exhibits of rural need, work and crafts of organized countrywomen of the participating nations, and attended "open houses" held by all branches of the federal government in which countrywomen are particularly interested.

In exchanging experiences the women learned, among other things, that:

English groups have stimulated a remunerative revival of quilting to supplement the family income.

Australian countrywomen maintain seaside homes for convalescents. Canada's Federated Women's Institute promotes clubs for rural youth and combats maternal and infant mortality.

By conducting evening classes for young girls Danish countrywomen have helped to check their migration to town to seek factory work.

IN A report just made public the business advisory council proposes a simplified basis for industrial self-regulation through the medium of voluntary joint agreements on unfair trade practices enforceable by the federal trade commission. The report was prepared by the council's committee on unfair trade practices of which Lincoln Filene of Boston is chairman.

Outstanding among the committee's proposals were suggestions that each branch of an industry, such as wholesale, retail, and manufacturing, police the activities of each other through confidential reports to the federal trade commission and that no attempt be made to include trade practice and labor provisions in the same agreements.

THE so-called industrial mobilization plan of the War department, providing for a military dictatorship over labor, capital and industry, as well as censorship of the press in wartime, was severely condemned in a report to the senate by the munitions committee.

THE senate by a vote of 62 to 14 passed the deficiency bill carrying \$2,375,000,000, of which sum \$1,425,000,000 is handed to the President to spend as he pleases for "relief and work relief." As passed by the house, the measure turned the entire amount of relief money over to WPA Administrator Harry Hopkins.

Three Democratic senators voted against the bill—Tydings of Maryland, Bulkley of Ohio and Byrd of Virginia.

By a senate amendment, the bill authorizes the President to order a re-study of reports on the \$200,000,000 Florida ship canal and allocate another \$10,000,000 to carry on work upon it during the coming fiscal year.

Efforts to do anything for the Passamaquoddy tidal project in Maine had proved unavailing.

NEW YORK state's law providing minimum wages for women and minors was declared unconstitutional by the United States Supreme court on the ground that it conflicts with the fourteenth amendment by violating freedom of contract. The decision, written by Justice Butler, was concurred in by Justices Van Devanter, McReynolds, Sutherland and Roberts. Chief Justice Hughes and Justices Stone, Brandeis and Cardozo dissented. A number of other states have statutes similar to the one thus held invalid.

CATHOLICS the world over celebrated the seventy-ninth birthday of Pope Pius XI, and the pontiff himself marked the day by attending a solemn mass in St. Peter's in the presence of 40,000 pilgrims who went to Rome especially for the occasion. These were mainly members of the Catholic Action organization which Pius XI founded, and to them he spoke for nearly an hour. He denounced communism, as he

Pope Pius XI

has done on other occasions, and declared the Catholic press was one of the best forces in combating the communists.

It was evident to all observers the pope's age is beginning to tell on him and that he found the long ceremony very much of a strain.

NINE of the richest unions in the American Federation of Labor, having more than a million members, probably will be suspended soon by the federation's executive council, and at the next convention they will be expelled if the council can command the necessary two-thirds majority. Thus will come to a crisis the internecine contest between the craft unionists led by President William Green and the industrial unionists who follow John L. Lewis, head of the United Mine Workers.

Green wants to continue to organize industry by skilled groups while Lewis would seek to unite all workers, skilled and unskilled, by industries into one big union.

The craft unionists, it was learned, intend to suspend the charters of the nine industrial unions at the July executive council session, a power granted the council under the A. F. of L. constitution.

Lewis' group of unions includes 400,000 miners, Sidney Hillman's Amalgamated Clothing Workers, David Dubinsky's International Ladies' Garment union, the oil workers, typographers, flat glass workers, hat, cap, and millinery workers, mine, mill, and smelter workers, and textile workers.

THERE was every reason to believe that Japan had found, or manufactured, excuses for further encroachments in northern China, and that serious conflict between the two nations would ensue unless China were submissive. The Japanese alleged that a bridge on the railway line between Tangku and Tientsin was destroyed and that there was an attempt to wreck a troop train. The highest Japanese officers in North China were summoned to a conference in Tientsin.

Yakichiro Suma, Japanese consul general in Nanking, declared publicly that China must choose either "mutual interdependence with Japan or war with Japan," and he said he had informed Generalissimo Kai-shek, Chinese dictator, of this viewpoint. "Japan has gone too far to retreat now and must advance straight ahead with immutable convictions," Suma said.

The Japanese military command, meanwhile, disclosed frankly some of their demands upon China. These included:

1. Privilege of building railroads, military and civilian air bases and army barracks.

2. Establishment of regular air service between China and Japan.

3. An economic, political and military position for Japan in China.

STEWART McDONALD, federal housing administrator, outlined to newspaper men a new program which provides for the construction of "garden homes" outside of large cities that will aid in the gradual movement of industrial workers from urban and suburban areas to small plots several miles out in the country. He said President Roosevelt was enthusiastic over the plan.

Emphasizing that "this is not anything in the way of a benevolent proposition" and that no grants of federal funds were involved, Mr. McDonald said it would be accomplished through a broadening of FHA regulations to permit government insurance of mortgages on such property. This will enable bankers and other lenders to advance funds for the development of these "in between" areas for residential purposes.

160,000 Horses
A New Democracy
Thin Men Live Longer
Must We Have War?

The well advertised Queen Mary, looking very big moving up to her New York dock, represented in reality the quintessence of compressed power. On the way over she developed one hundred and sixty thousand horse power.

Arthur Brisbane

That number of horses hitched in pairs, one ahead of the other, would make a "team" more than two hundred and fifty miles long. Still more remarkable power compression is that of the flying engine, which compresses the power of a 1,000-pound horse into less than three pounds of metal.

The government offered for sale six hundred millions of 2 1/2 per cent bonds, four hundred millions of 1 1/2 per cent notes. The whole issue is oversubscribed.

It is a comfort for those that have money and want no risk to invest even at low interest rates, free of income tax payments.

Such an investment is much simpler than running the risk of a business enterprise with pay rolls and jobs attached.

To tax heavily the man who uses his money and brains to give work to others, and free from taxation those that buy bonds and take their ease, is a brand-new kind of democracy.

Men of middle age and older may learn from Civil war veterans in the Memorial day parade, some ninety and some ninety-three; one, who led New York city's G. A. R. procession, past ninety-six years of age.

All the old soldiers are very thin men, averaging in weight less than 140 pounds. Had they been fat they would be in the grave, not in any parade.

General Pershing cut a big birthday cake with a general's sword. Mrs. Roosevelt looking on, and on Memorial day he warned America against another war.

To believe that this country can be dragged into a war without a repetition of our big war folly is not complimentary to those in charge. No foreign nation would force war on the United States, and thus put United States resources, and any fighting qualities that Americans may possess, on the side of that foreign nation's enemies.

The unfortunate congressman, Zinncheck, from the Northwest, is locked up in Washington, his sanity to be investigated, after he visited the White House with a present of empty beer bottles for the President.

The unfortunate congressman's antics are not important in themselves, but you wonder what qualities were seen in him by the voters.

The United States Supreme court declared unconstitutional a New York state law that would permit New York to fix a minimum wage for women and children.

Chief Justice Hughes, who did not agree with the majority opinion, wrote: "I find nothing in the federal Constitution which denies to the state the power to protect women from being exploited by over-reaching employers."

Alfred P. Sloan, Jr., who ought to know about American industry, says enormous building operations are needed in the United States to replace out-of-date equipment, and that the door is wide open for "plenty of jobs and then more jobs."

American cotton growers fighting the boll weevil will sympathize with Argentine growers, attacked by vast swarms of devouring locusts, far worse than any weevil. The Argentine ministry of agriculture announces 10,000 tons of cotton devoured, 60,000 acres invaded.

Farmers fight the locusts by erecting walls of sheet iron or digging ditches, into which the locusts swarm, to be sprayed with gasoline and burned. Tons of the pests are thus destroyed.

Mayors of Arab cities in Palestine warn the British that they must stop Jewish immigration and the sale of land to Jews in Palestine. The British answer to the warning will probably not be satisfactory to the Arabs. It is reported also that the central committee for Palestine of the "Communist party" is distributing literature urging British soldiers in Palestine to mutiny.

The national Socialist convention in Cleveland, formulating "immediate demands," denounces the New Deal, demands a revision of the Constitution and an end of what is called the "usurped power" of the Supreme court. In all these matters, others were ahead of the Socialists.

President Lewis, of Lafayette college, thinks wars would end if men arches who voted for it were put in front line trenches. That might prevent some wars, not all.

Uncommon Sense By John Blake

© Bell Syndicate—WNU Service

When today we speak of a pioneer we have in mind a man with a long rifle and a coon skin cap who makes his livelihood by discovering new rivers and brings back from his wanderings the skins of beavers and badgers and muskrats.

Today the pioneers have disappeared from the backwoods. One of the reasons for this is that there aren't any more backwoods, another is that pelts are scarce south of the Canadian line, and it hardly pays to gather them.

The pioneers of today are scientists and engineers and chemists.

They explore, not the woods, but fields which for many years were never opened.

It is they who build ships that fly through the air at hundreds of miles an hour, and who are building locomotives that speed almost a quarter as fast as that.

It is they who create useful fabrics which a few years ago were wholly unknown, but which now have become necessities to the practice of many of the modern arts.

Many of these pioneers are physicians and surgeons, who by their skill can save lives which a few years ago would certainly have been lost, and who can restore to strength and activity victims of injuries whose cases would in 1920 have been given up as hopeless.

Every year colleges and technical schools are turning out men who will become pioneers in industry of all kinds, and whose labors may work revolutions in many directions.

There will come a time, I am convinced, when these men will, by complete utilization of the water powers of the country, do away with coal as used as fuel—though they may continually utilize the coal for dyes and other products needed by chemistry.

Elemental gases never known before are widely employed.

Hellum, long unknown, now bears dirigibles through the air, and will prove indispensable in time of war.

Here is a pioneering which need not destroy trees or sweep wild creatures out of its way, which has discovered and developed forces heretofore utterly unknown, and which rapidly, by leaps and bounds, is supplying to mankind treasures of the earth never before suspected.

What it may accomplish in the future we today have not even a guess.

But certainly it will carry on its program of research and continue as the days go by to lighten the world's burdens, and to supply man with a leisure which he can employ vastly to his own advantage.

I am beginning to wonder what the people of this country do with the time that they save.

Travel across the American continent, and if you keep an eye out of the car window you will constantly see gangs of men hard at work reducing curves, building tunnels and in other ways shortening the time required to move trains from one place to another.

The streamlined type of train has further decreased the time of travel from coast to coast.

Meanwhile men have become air minded, and the journey from New York to San Francisco or Los Angeles, which used to require months in the old ox cart times can be made in a few hours.

Transcontinental journeys have become a matter of a few days.

But what does the man who, after leaving New York, suddenly finds himself set down across the bay in San Francisco do with the time he has saved?

As a rule, nothing important.

He talks to his friends about the amazing speed with which he covered the continent; perhaps he sells a bill of goods, then goes out to see the seals, or takes a trip up to the top of Mount Tamalpais.

But has he gained anything by the rapidity of his journey? I doubt it.

It seems to me that if we would eliminate all the mad rush to get to places in the least possible time, we would gain much more pleasure and instruction.

I do not think we ought to devote quite as much time to a transatlantic journey as Columbus did on his, but I do believe that if we took time out now and then to look around, and get acquainted with the people we meet in distant sections of the country it would be better for us all.

A child can make a trip to his local Main street and back, and get all manner of interest and instruction out of it.

Men and women who travel merely for pleasure have no end of fun.

But it has been my experience in cross-continental travel that most of those who engage in it are far more interested in just "getting there" than they are by what they see and hear and experience on their way.

I do not advocate the "back in your own back yard" method of spending a life time.

But even that is better than dashing madly here and there so that we afterward can brag of the brief time we consumed.

Washington's Letter on Spies Expenses Sells for \$2.00

Back in Revolutionary war time George Washington wrote a letter to one of his commanders, General Talmadge, telling him that it would be difficult to raise \$250 for the expenses of an American spy, Benedict Crosby. This spy is believed to have been the original in James Fenimore Cooper's book, "The Spy." It was hard to raise the \$250 needed for spying purposes in those perilous days, but the letter Washington wrote about it brought \$2,000 in sale in Philadelphia recently. It had been a part of the collection of the late Charles T. Jeffery, Merion Station, Pa.—Wall Street Journal.

GAS-MAKING STOVE COOKS MEAL FOR 2c

Amazing New Invention of W. C. Coleman Brings All the Modern Conveniences of City Gas to Homes Beyond the Gas Mains

Economically-minded housewives will share the enthusiasm of W. C. Coleman, inventive genius, for his new gas-making stove which cooks a meal for 2c or less.

The new Coleman Range will do the family cooking at a cost below that of coal, wood or kerosene stoves, and do it quicker and better.

This remarkable new Coleman Safety Range lights instantly just like gas. Makes its own gas from ordinary lead-free gasoline. Its patented, fuel-saving Band-A-Burners are easily regulated to exactly the heat desired for frying, boiling, baking or broiling.

Mr. Coleman uses Everdur metal for the fuel tank, a big safety feature. Everdur metal will not rust or corrode.

In addition to providing every cooking advantage of the finest city gas range, Mr. Coleman's new Range adds beauty in the kitchen by distinctive styling and pleasing color effects in gleaming porcelain enamel finish.

Readers of this paper wishing full information about these wonderful Coleman Ranges will receive illustrated literature and a valuable Stove Check Chart by addressing a postcard to W. C. Coleman, Dept. WU-235, Wichita, Kansas—Ad.

Cardui During Middle Life
Women who are entering middle life will be interested in the experience of Mrs. L. C. McDonald, of Paragould, Ark., who writes: "I took Cardui during change of life. I was so weak, so nervous, I could hardly go. I just dragged around. I had fainting spells and would just lie down. My back and head hurt. I read of Cardui. I took about seven bottles. It gave me relief and strength. I am now 60 years past, and can do a pretty good day's work in the house and garden." Thousands of women testify Cardui benefited them. Grow Through Work

Work is the only means of growth. Instead of being a curse, as some would have us believe, work is a means of measureless good. Not to work is to keep always an undeveloped hand, or heart, or brain. The things which work may achieve are not half so important as that which work does in us.

Apply New *De Luxe* Dr. Scholl's Zino-pads on any sensitive spots caused by shoe pressure or friction and you'll have instant relief. They stop pain of corns, callouses and bunions; prevent sore toes, blisters; ease tight shoes. Flesh color, waterproof; don't come off in the bath; economical. Sold everywhere.

True Poverty

The poorest man in the world is he who has nothing except money.

Miserable with backache?

WHEN kidneys function badly and you suffer a nagging backache, with dizziness, burning, scanty or too frequent urination and getting up at night; when you feel tired, nervous, all upset . . . use Doan's Pills.

Doen's are especially for poorly working kidneys. Millions of boxes are used every year. They are recommended the country over. Ask your neighbor!

No Need to Suffer "Morning Sickness"

"Morning sickness"—is caused by an acid condition. To avoid it, acid must be offset by *alkalis*—such as *magnesia*.

Why Physicians Recommend Milnesia Wafers

These mint-flavored, candy-like wafers are pure milk of magnesia in solid form—the most pleasant way to take it. Each wafer is approximately equal to a full adult dose of liquid milk of magnesia. Chewed thoroughly, then swallowed, they correct acidity in the mouth and throughout the digestive system and insure quick, complete elimination of the waste matters that cause gas, headaches, bloated feelings and a dozen other discomforts.

Milnesia Wafers come in bottles of 20 and 48, at 35c and 60c respectively, and in convenient tins for your handbag containing 12 at 20c. Each wafer is approximately one adult dose of milk of magnesia. All good drug stores sell and recommend them.

The following invitation has been received by a wide circle of relatives and friends: Mrs. Robert J. Decker requests the honour of your presence at the marriage of her daughter, Adele, to Mr. John Martin Finger, Jr., on Tuesday, June the twenty-third, at ten o'clock in the morning, Saint John's Church, Hondo, Texas. Miss Decker graduated from Our Lady of the Lake High School and also attended Our Lady of the Lake College. For the past few years she has been teaching the Vandenburg school in Medina County. Mr. Finger, the second son of Mr. and Mrs. J. M. Finger of Hondo, graduated from Hondo High School and received his degree from St. Edward's University, Austin. He taught at Laredo last year. Both young people are popular members of St. John's parish and have many friends in Hondo and Medina County.

Superintendent J. G. Barry is in attendance upon the Third State Curriculum Conference for Administrators, Supervisors and Curriculum Workers which convened yesterday for a three-day session at the State University at Austin. This conference is being held under the sponsorship of the University at the request of the Texas State Curriculum Revision Program. This is one of the most important educational conferences of the year. In addition to listening to well-thought-out discussions by leaders in their respective specialties the general discussions will give all present an opportunity to participate and clarify any doubtful points that may arise. Mr. Barry expects to be back in Hondo Sunday.

Henry V. Haas, H. H. Crow and W. N. Saathoff were delegates in attendance upon the 14th annual meeting of the Texas Association of Mutual Life Insurance Officials which met Tuesday morning, June 9, 1936, at the Plaza Hotel in San Antonio. An interesting program, extending through Tuesday and Wednesday, was enjoyed by a large number of delegates.

Hondo's monthly Trades Day event came off on scheduled time Wednesday afternoon, with a large crowd attending. Prof. C. F. Schweers acted as master of ceremonies and after the awards were made, he presented a number of rural school children with seventh grade diplomas. The Trades Day winners were as follows: Mrs. Charlie Finger, Mrs. C. F. Schweers, Mrs. Gus Wiemers, Max Wenmohs, Miss Alice Muennink, all of Hondo, and Harold Kieber of Tarpley. Preceding the event, the Lutheran Ladies' Aid sold homemade ice cream and cake across from the plaza, and as it was an extremely hot day, did a "land office" business. The next Trades Day will be July 8.

Joe V. Wright of Freer, Texas, who has been attending Texas University at Austin, is spending the vacation months with his brother-in-law and sister, Mr. and Mrs. O. G. Crow. Mr. Wright, who is an amateur radio operator W5AQN, and Mr. Crow, W5BFL, are building up a couple of transmitters which they hope will contact the entire world. Mr. Wright and Mr. Crow were in constant communication while the former was in Austin, and all the plans for the summer months were made during these radio contacts.

Melicio Garcia, son of Antonio Garcia, who learned the shoemaker's trade under Rev. J. T. Mr. Horger's friends will be happy to learn his health has somewhat improved. He is not strong enough to resume work in his shop, however, and he is glad to have a dependable man in charge of it.

The Luncheon Club had a small attendance but a congenial meeting at the monthly luncheon Wednesday. This club meets every second Wednesday of the month—on Trades Day. There are no fees or dues, but each pays for his own lunch and any guests he may bring, and anyone residing in Hondo can be a member. It is hoped that a larger attendance will be present at future meetings. Remember the date and do not wait for an invitation.

Texans are seeing Texas during

CENTENNIAL YEAR!

Centennial year is not only an opportunity for Texas to be host to millions of visitors from other states. It's a year for Texans to travel Texas and know their own state.

For real vacation pleasures Texas is unsurpassed anywhere. We have mountains, seashore, missions, foreign atmosphere, pine woods, gay night life in our metropolitan cities, historic places, unexcelled golf and fishing—every attraction you can find anywhere, right here in our own state.

Millions of Texans are seeing the big exposition at Dallas, then driving on to various other parts of the state for other equally interesting Centennial Celebrations. The Texas Centennial is state-wide. See all of it that time permits.

Read the calendar of interesting Centennial events at the right. Write the various chambers of commerce for complete information at cities you are interested in.

RESOLUTIONS OF RESPECT.

HONDO CITY LODGE
No. 756, A. F. & A. M.
Hondo, Texas

June 8, 1936.
Whereas, He who doeth all things well, has seen proper to call from his labors our brother and co-worker, Brother Henry R. Wernette. And whereas it is but just that a fitting recognition of his many virtues should be had, therefore be it

Resolved, by the Hondo City Lodge No. 756, A. F. & A. M., that while we bow with humble submission to the will of the Most High, we do not the less mourn for our friend and brother who has been taken from this earthly tabernacle to the celestial lodge above.

Resolved, that in the death of Brother Wernette this Lodge laments the loss of a brother who was ever ready to proffer the hand of aid and the voice of sympathy to those in distress of the fraternity.

Resolved, that we sincerely condole with the family of the deceased, and the heartfelt sympathy of the lodge be extended to them in their affliction.

Resolved, that these resolutions be entered upon the records of the lodge and a copy thereof transmitted to the family of the deceased brother.

Time Lost is Money Lost

It costs money to be sick. You see it directly if your pay envelope is short. You lose out on some important work if you live on a farm or if you are one of the few who are not docked for lost time. You can't afford to show up on the job unless you are feeling fit. The boss wants results—not excuses.

How many times do Gas on Stomach, Headache, Sour Stomach, "That Tired Feeling," That "Morning After" Feeling, Neuralgia, Rheumatic, Sciatic, Muscular or Periodic Pains keep you at home or interfere with your doing a full day's work?

All these troubles are caused or made worse by too much acid in your body. To correct this condition take

ALKA-SELTZER

The New Pain Relieving, Alkalizing, Effervescent Tablet.

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid. Alka-Seltzer is pleasant to take, harmless, non-laxative.

Why don't you try it? Get a drink at your drug store soda fountain for a nickel. Buy a package for home use.

BRONCHOS DEFEAT LAKEVIEW DAIRY.

The Hondo Bronchos downed the Lakeview Dairy team of San Antonio by the score of 11 to 9 on the Quibi diamond, Sunday.

The San Antonio team nipped Nester for seven hits and six runs in the opening inning. After the first frame he allowed but four hits during the remaining eight innings. The Bronchos, led by J. Wilson, with three hits out of four trips to the plate, and D. Windrow with two out of five garnered nine hits off of Hunt.

Sadler and Wilson turned in a nice game at short and third, handling 14 chances without an error.

Next Sunday the Bronchos journey to Beeville where they meet the Pettus Oilers.

HONDO SOFT BALL LEAGUE JOINS TEXAS AMATEUR ATHLETIC FEDERATION, INC.

At a meeting of the Hondo Soft Ball league it was voted that the league enter a team in the Texas Amateur Athletic Federation, Inc.

The mission of the Federation, as related in the constitution and by-laws, shall be to create and maintain in the State of Texas a permanent organization representative of amateur athletics, and of organizations devoted thereto; to establish and maintain the highest ideals of amateur sport in the State of Texas; promote the development of physical education and to encourage the standardization of rules of all amateur athletics, games and competitions.

The State of Texas is divided into 16 districts of which each will be represented by one team in the state finals which will be played in Austin, Texas, August 21, 22.

Hondo is in District 13 with San Antonio as its headquarters. The counties included in this district are: Atascosa, Karnes, Wilson, DeWitt, Gonzales, Guadalupe, Bexar, Comal, Kendall, Kerr, Bandera, Medina, Frio, Zavalla, Uvalde, Real, Edwards and Kinney.

The district tournament will be held two weeks in advance of the

state meet in San Antonio.

Mr. N. C. Johnson was given the sponsorship of the Hondo team which will represent Hondo in the state contests. Clifford Sadler was appointed by Mr. Johnson to act as playing manager.

The team will be composed of the outstanding soft ball players of Hondo. There will be special work-outs for this tournament. If you are interested in playing come out when called on and help Hondo go as far as possible toward winning the state tournament.

H. FISHER KING REPRESENTING JEFFERSON STANDARD LIFE INSURANCE CO.

H. Fisher King, resident of this city since childhood, has been appointed special representative of the Jefferson Standard Life Insurance Company of Greensboro, North Carolina. He will operate under the San Antonio Office which is a direct branch of the Company.

The Jefferson Standard Life Insurance Company is regarded as one of the most aggressive and progressive insurance companies in America. It writes both participating and non-participating insurance on the lives of persons from one day of age to 65-1-2 years.

The Jefferson Standard was organized August 1907. When it began business there were 111 Old Line Insurance Companies established and operating in the United States. There are now more than 370 such companies and the Jefferson Standard ranks twenty-eighth in size as regards to amount of regular ordinary business in force. This means that during this 29-year period of expansive yet conservative growth, the Company has passed eighty of the companies that pre-existed it.

O. P. Schnabel, Southwest Texas Manager of the Jefferson Standard, when speaking of H. Fisher King said they were happy to have a representative of King's type represent the Company in Hondo.

MISCELLANEOUS SHOWER.

Miss Thelma Schlentz, a bride-elect of the month, was honored with a miscellaneous shower, June 6th, at the home of Mrs. Chas. Schlentz. The hostesses were Mesdames Chas. Schlentz, Edward Muehring, Milton Balzen, and Misses Lorene Brucks.

and Ima Leinweber. The home was beautifully decorated in pink and white. Little Miss Alnita Jean Saathoff, dressed in pink and white, preceded the honoree to chair over which an umbrella was spread, and also decorated in the chosen colors. Miss Eileen Hartman played the accordion for the march. Miss Schlentz wore a pink crepe dress. Miss Eileen Schlentz read the toast as follows:

Here's to Thelma—the brown-eyed maiden:
 June brides! Wedding bells!
 Each one the same story tells.
 A trip you are going to take
 In Love's beautiful ship, on life's rolling sea.
 If the waves should rise and roar,
 Just be patient and love will bring you to a peaceful shore.
 Just a little bit of advice:
 For instance:
 The rolling pin is for cakes and pies,
 Not for George's head!
 If he your cooking should despise,
 Friends have come from far and near with gifts of love,
 Wishing you health and happiness, golden store,
 What, dear Thelma? Can we wish you more?
 After the beautiful presents were admired by all, Miss Schlentz thanked the guests for them. Pink and white ice cream, cake and cookies were served, with pink baskets of pink and white mints as favors.

SAN ANTONIO LIVESTOCK.

Monday, June 8, 1936.

The early market at San Antonio Monday was active in the cattle division with price levels generally steady with last week's close. In-between grade yearlings and bulls were a little draggy. Receipts were estimated at 600 cattle and 800 calves, a fairly liberal Monday run.

Most good fat calves and light weight yearlings were active at \$6.00

to \$6.75, few up to \$7.00. Medium grade offerings cashed at \$5.00 to \$6.00 with common kinds down to \$4.00 and "rannies" to \$3.50. Odd lots of fed steers and yearlings brought mostly \$6.00 to \$7.00, including 800-1000 pound short fed steers at \$6.00 to \$6.50. Matured grass steers sold at mostly \$5.00 to \$5.50, few up to \$6.00. Common to medium grade butcher cows brought \$3.75 to \$4.50, few fat kinds to \$4.75 and above. Cutter grades moved out at \$2.75 to \$3.50, shells out at \$2.50. Bulls were slow at mostly \$4.75 down to \$3.50 for light weights, few fed bulls up to \$5.00. Stocker and feeder calves sold actively to shippers at \$5.00 to \$6.00, few better kinds to \$6.50.

Hogs, 300 head. The market opened active with prices steady with last week's close. Top of \$8.75 was paid readily by all interests for best 175 to 250 pound truck offerings. This top has been paid daily for the past two weeks. Desirable 140 to 150 pound butchers, \$7.75 to \$8.50; 150 to 170 pounds, \$8.00 to \$8.50; 260 to 300 pounds, \$8.00 to \$8.50; 300 to 350 pounds, \$7.50 to \$8.00. Packing sows mostly \$7.00 to \$7.50, few above.

No sheep or goats on offer Monday, but quotably steady with last week's price levels. A few plain spring lambs last week sold at \$6.50 and \$6.75. Aged wethers cashed at \$3.50-\$4.00.

A TICKET FOR FLORENCE

The old lady rapped on the window of the tiny station booking office.

"I want a ticket for Florence," she announced.

After vainly hunting through several large railway guides the clerk came back to the window with a somewhat ruffled head and temper.

"And where is Florence, anyway?" he demanded.

"That's her, the little dog sitting over there with the luggage," answered the old lady sweetly.

SMALL MATTER

"Do you like your school, Jimmy?"

"Yes, sir; we have a fine school, but I think they oughta get a new teacher."

True Observation

The professor of economics had been talking steadily for more than an hour, and his class was becoming a trifle restless.

"Take any article, for instance," he droned on. "When it is bought it goes to the buyer."

"What about coal?" interposed a weary voice.

The professor gazed over his glasses at the interrupter.

"Well," he snapped, "what about it?"

"When coal's bought doesn't it go to the cellar?" asked the youthful student.

WNU-P

what Irvin S. Cobb thinks about:

A Political Bystander.

HOLLYWOOD, CALIF.—If I were a Republican orator, I'd say the Democrats wouldn't need a keynoter at their convention when a hog-caller would be more suitable. If, on the other hand, I were a Democratic silver-tongue, I'd say the Republicans needed a campaign committee, whereas a set of palbearers would be highly appropriate.

As a Republican spellbinder, I'd proclaim we were giving Puerto Rico four years in which gradually to cut loose from us, because, should the Democratic outfit win in November, by the end of those four years the Puerto Ricans will be used to having some independence and we'll be used to having none at all. As a Democratic champion, I'd come right back by pointing out that, since Puerto Rico would starve to death anyhow under a Republican administration, congress mercifully was taking steps to let the people down there get accustomed, by degrees, to the starvation process.

As an innocent bystander, though, about all I can say is that, once the dominations have been made, it's a safe prediction that this summer will be fair and warmer.

Meandering Revenue Program.

THE members of the senate finance committee—poor things!—seem to be going forward with the new revenue program the same way a land crab makes headway—by traveling backward. At last accounts they were so snarled up in figures and language that any minute the rescue party was expected to rush in with bush-hooks and chop them loose.

However, out of the epileptic seizure into which these unfortunate patriots have been enmeshed, one concrete fact has emerged. There will be a slight exemption of dues on the profits of corporations making less than \$15,000 a year. This will be a great boon for trunk stores down by the depot, brokerage firms handling second-hand railroad tunnels and dealers in Brazilian butterflies.

New Socialist Argument

THE trouble with being a socialist is that, no matter what you start to debate, you always wind up on the Tom Mooney case. Or at least, such was the situation until recently. Now, for any socialist argument on any subject from German measles to the Great Wall of China, there is a new climax.

The tenants of a Bronx apartment house, mostly radicals, held a meeting, and, in accordance with the best radical traditions, drew up resolutions demanding that the management do this and that. Having read the fiery protest, the superintendent addressed the gathering:

"Now about not letting nobody hang out washing in the hallways—that's reasonable. I start beginning that reform right away."

"And as to keeping garbages off the front fire escape—well, vy nodd?"

"But, say, vot do you suckers expect me do about the Scottsboro boys?"

Sauce for the Goose.

WHEN a bricklayer feels upset and ticks his wife that's temper and he gets \$30 or 30 days. But when a flicker star goes on a similar tantrum and wrecks an expensive set, that's artistic temperament and the studio gives her some silver fox furs to calm her nerves.

Thus it goes. If a couple in, say, Peoria, break up, why, then, a couple in Peoria have broken up. But if the same thing occurs in Hollywood, it invariably is featured as a "nuptial rift."

A lad in Kansas takes his girl to Ye Old New Era entry for dinner, and what with the blue plate specials and the tip, the transaction amounts to \$1.50, but otherwise creates no special excitement either locally or throughout the nation. Let the same thing happen to a couple of the least conspicuous of the movie colony, and 20 columnists fight their way to the wire to scatter the thrilling tidings.

Choosing a New "Buddha."

FROM the forbidden kingdom of Tibet—although goodness knows they never had any trouble keeping the out-comes word that after a two years' search a new "living Buddha" has been discovered. However, we already have our own grand lammer, the name being Joe Louis.

The news from Lhasa should give encouragement to the poor unhappy congressional committeemen who are prominently connected with the Townsend plan who'll condescend to talk to them.

You may quarrel with the Townsdenites' bookkeeping, with their way of handling the contributed dimes of thousands of trusting oldsters, with going to get the billions to pay those gaudy pensions or how the provisions of the distribution are to be enforced but at least the leaders are too proud to endanger their social positions by being caught chit-chatting with a lot of congressmen.

Escape in Siberia

SIR HORACE PLUNKETT of England, or "Hod" Plunkett as the cowboys in western Nebraska and eastern Wyoming in the early days knew him, had some thrilling adventures in the American frontier but his narrowest escape from death occurred while he was traveling through Siberia.

One day his horse went lame near a Russian village. Being in a hurry to reach St. Petersburg, he left his horse there and hired another one, hitched to a sleigh. In the midst of a dark, dismal forest, he heard a howl and, looking back, saw a huge timber wolf pursuing him.

Sir Horace lashed his horse into a mad gallop but he soon saw that it was no use. The wolf was gaining on him at every jump. Just as the fierce beast sprang at him, Sir Horace dropped down into the bottom of the sleigh. The wolf shot clear over him and lighted on the horse's hindquarters which it soon ripped to shreds.

The terrified horse kept on running even after it was half eaten up. Then Sir Horace sprang up. His whip gave the wolf a terrific cut. With a howl the beast sprang forward just as the horse died and fell out of the harness which dropped on the wolf.

Sir Horace then grabbed up the reins. By lashing at the wolf constantly with his whip he kept it going forward, drawing the sleigh behind it at a terrific pace. A few moments later it raced into a town and came to a plunging halt in front of an inn. Out dashed a group of Russians who killed the wolf and, as Sir Horace stepped out of the sleigh, pressed forward to congratulate him upon his escape.

The Humiliated Teeth

IN SALT LAKE CITY, baseball bugs still refer to Joe Jenkins, their old catcher, as the man who always wore a mask. The description is wrong, technically. Joe used a mask when catching, but the contraption he wore other times was a little net, slung under his chin. It acted as catcher, too—whenever Joe's lower plate of 16 shiny, false teeth, worked loose.

Without dreaming of being insulting, Joe laid the plate aside in a restaurant one night and went right on eating. It happened the teeth were on edge; they were so humiliated by his act they rolled to the floor and hid there.

Next day, filled with remorse, the teeth began to hunt Joe. It was a long search, filled with heart breaks. Once the teeth almost caught up with their owner while he was gulping an order of milk toast, missing by snapping distance only.

One afternoon, Salt Lake opposed the Portland Beavers. The Utah team was three runs behind, ninth inning, two out and the bases filled. Joe'd been in an awful slump and was benched.

At this moment, fortunately for Salt Lake, something resembling a wide smile crawled up the players' bench and hit Jenkins where he carried his eating tobacco. Whooping wildly, Joe leaped seven feet in the air. With his right hand he snapped the prodigious lower plate into his mouth; with the left he reached down for his bat. Joe slammed a home run over the left field fence, winning the game for Salt Lake by a score of 6 to 5.

A Resourceful Cock

"THE picture in my living room," said Humming Bird Stevenson of Columbia, Tenn., "is not a reproduction of a freak of nature but a life-like portrait of Blinky, my one-eyed rooster."

"Blinky was a seasoned Irish gray, a veteran who survived more pitings than any rooster in the history of Maury county."

"That smear on the right side of his head is a glass eye. I know it's bloodshot. I painted it that way to make the other cocks overconfident. His neck is a trifle corkscrewish—that's because Blinky, in feinting to overcome the handicap of a single eye, almost wrung his own neck."

"The greatest pitting he won was when a couple of city fellows came to Columbia with their fighting birds and cleaned everything in sight."

"In the grand finale, Blinky was matched against the city champion, an Allen round-head, and I bet all I could borrow or steal at odds of 5 to 1. The odds were easy to get, for word was passed to the city slickers that poor old Blinky was a one-eyed cock. I guess you know who spread the report."

"Blinky never showed better pitmanship. Wherever the round-head struck my pride sideslipped and put his glass eye in front of the guffs. After that the round-head's needles were too dull to mend a pair of open-work stockings and the match was in the bag."

Standing Stones of Stennes

Very little information about the Standing Stones of Stennes is available. It is generally believed that the standing stone circle belongs to the Bronze age. Some authorities hold that the interior area was used for a burial ground; this seems never to have been proved, but there appears to be no doubt that they were connected in some way with the burial ceremonies of the people who erected them.

New Methods in War Against 'Polio' Paralysis

Propose Sodium Alum or Tannic Acid Nasal Spray

NEW YORK.—A chemical method of protecting against infantile paralysis, recommended for trial in the next epidemic of this dread disease, was reported by Drs. A. B. Sabin, P. K. Olitsky and H. R. Cox of the Rockefeller Institute for Medical Research.

The method consists in dropping or spraying into the nose solutions of either sodium alum or tannic acid in suitable strength. The chemicals seem to act as a shield against the disease, by keeping the causative virus from entering the body and reaching the nerve cells in brain and spinal cord.

"Experimentally there is now sufficient basis for a trial in man of these chemicals in the prevention of poliomyelitis during epidemics," the investigators stated.

Where Treatment Originated.

Tannic acid was first suggested as a suitable chemical for this purpose by Doctors Olitsky and Cox. Sodium was advocated as a result of studies by Drs. Charles Armstrong and W. T. Harrison of the National Institute of Health, United States public health service.

Most of the studies were made with monkeys. However, a number of human volunteers were given nasal treatment with 4 per cent sodium alum solution. They suffered no untoward symptoms other than slight local irritation and nasal discharge for a few hours, indicating that the treatment is safe.

Effective on Monkeys.

It seems very effective in protecting monkeys against the disease. "Typical poliomyelitis (infantile paralysis) was induced in 26 of 34 untreated monkeys by the instillation on two occasions, 48 hours apart, of 1 cc. of a 10 per cent suspension of poliomyelitic cords into each nostril," it was reported. "The majority of monkeys treated with either sodium alum or tannic acid for a number of days prior to the instillation of virus were distinctly resistant to poliomyelitis. Only two of 20 monkeys treated in that manner with 4 per cent sodium alum developed the disease, and these were in a group which apparently received more than the average amount of virus. Most of the monkeys treated with 3 per cent alum also proved resistant, while 0.5 per cent and 2 per cent had no effect. Four per cent tannic acid, although used in a smaller series, was also effective, while 0.4 per cent and 0.8 per cent were not."

"Treatment with alum for at least a few days prior to infection was necessary to induce resistance. The resistance could be maintained over a period of several weeks by one daily instillation of the chemical; omitting the treatment for 48 hours diminished the number of monkeys that were resistant."

Device Makes Line Noises Commit Suicide in Radio Receiver

WEST HARTFORD, CONN.

—Making the troublesome popping and crackling line noises in a radio receiver commit suicide is the newest method of attack on eliminating the sounds that appear when lights in the home are switched on or off, or the vacuum cleaner put into operation.

James J. Lamb, technical editor of the American Radio Relay League's magazine QST here, describes how noise suicide works in the magazine.

Many of the popping and crackling sounds that come out of the loudspeaker are due to very quick acting disturbances in the radio receiver circuit which would be fairly harmless except that the loudspeaker picks them up, starts vibrating and keeps it up for an appreciable length of time because of its inertia.

Mr. Lamb's method, which is described in full detail for his technical audience, is "noise suicide" on the radio.

Extending above the desired signal amplitude at radio frequency, rectify them, and use the rectified voltage to control the gain of a subsequent radio-frequency stage, automatically and instantaneously."

Which says essentially that the quick acting noises will be turned into a form of current that can be used to increase the amplification of the receiving set and thus raise the sought-for program signals to a loudness that will mask the popping. In a way the method is a type of automatic volume control that acts before the loud speaker can become aware of the oncoming noise. Noise suicide is another brief way of saying the same thing.

Don't Say 1936 but Forty-Four Squared

STATE COLLEGE, PA.—If you tire of writing 1936 after dates during the current year you can instead write forty-four squared, or 44² as the mathematician would put it, says Dr. Donald P. LeGalle of the physics department at Pennsylvania State college here.

Gay Cotton Print Dress Easy to Make and Sure to Please Sprightly Maiden

Pattern No. 1882-B

The time for gay little cotton prints both for older sister and the younger set is at hand, and nothing could be simpler than this darling dress—so easy to make—so comfortable for nimble dears—and so smart to wear.

The French bodice effect and buttoned panel are cunning details which all little maidens love, especially the flared skirt, because it provides ample freedom for playtime. Decorative features are hidden in the contrasting collar trimmed with ruffled edging, and brief puff sleeves. The material may be a printed percale, lawn linen or gingham. If it is made in a plaid or checked gingham,

you can omit the ruffled edging from the collar and make the collar of plain white pique.

Barbara Bell Pattern No. 1882-B is available in sizes 2, 4, 6, 8, and 10. Size 4 requires 1 1/2 yards of 35 inch material plus 1/4 yard for contrast. Send 15 cents for the pattern.

Send your order to The Sewing Circle Pattern Dept., 367 W. Adams St., Chicago, Ill.

OF INTEREST TO THE HOUSEWIFE

Strong soap suds and hot water will remove stains from pewter that has become discolored and dark.

Half a cupful of milk added to most soups just before serving, makes them creamy and delicious.

A teaspoonful of baking powder added to potatoes while they are boiling, will make them light and fluffy.

For the picnic lunch basket, roll out baking powder biscuit dough, about one-quarter-inch thick, cut with biscuit cutter, spread thickly with deviled ham, roll up and bake.

Heat a lemon thoroughly before squeezing and you will obtain nearly double the quantity of juice.

Powdered borax added to the water when washing fine white flannel, helps to keep them soft.

Purchase seldom used spices in small packages, as it is more economical since spices lose some of their flavor when exposed to the air.

HIGH "Dollar Mileage"

(MORE MILES PER DOLLAR)

ONLY THE FORD V-8 GIVES YOU ALL THESE FEATURES

1. V-8 ENGINE PERFORMANCE WITH ECONOMY
2. SUPER-SAFETY MECHANICAL BRAKES
3. SAFETY GLASS ALL AROUND AT NO EXTRA CHARGE
4. WELDED STEEL BODY—STEEL STRUCTURE AS WELL AS SURFACE
5. CENTER-POISE RIDING COMFORT

NO MATTER how you classify your expenditures for car up-keep — it's your total expenditure that counts. How much "dollar mileage" is your car

Dollars do go farther in the Ford V-8. Modern improved carburetion gives you unusual gasoline mileage with brilliant V-8 performance. Most owners of today's Ford change oil only every 2000 miles and add none between changes.

And after the first few thousand miles you begin to understand what Ford V-8 "dollar mileage" really means.

It gives you more miles per dollar because it gives you all-round economy — low first cost, low up-keep cost, low depreciation and long life — as well as low gasoline and oil consumption. All these are big items if you aim to buy the most economical car.
